It also includes billing documents for those services.

- **Example of uses of your health information for treatment purposes:** A nurse obtains treatment information about you and records it in a health record. During the course of your treatment, the doctor determines a need to consult with another specialist in the area. The doctor will share the information with such specialist and obtain input.
- **Example of use of your health information for payment purposes:** We submit a request for payment to your health insurance company. The health insurance company requests information from us regarding medical care given. We will provide such information.
- **Example of Use of Your Information for Health Care Operations:** We obtain services from our insurers or other business associates such as quality assessment, quality improvement, outcome evaluation, protocol and clinical guidelines development, training programs, credentialing, medical review, legal services, and insurance. We will share information about you with such insurers or other business associates as necessary to obtain these services.

An accounting will not include internal uses of information for treatment, payment, or operations, disclosures made to you or made at your request, or disclosures made to family members or friends in the course of providing care;
- Request that communication of your health information be made by alternative means or at an alternative location by delivering the request in writing to our office; and,
